Consumption values were measured in normalized conditions in compliance with Standard IEC/EN 60 456. Consumption data in the home may vary with respect to the values in the table in relation to the water supply pressure and temperature, the load and the type of wash.
* The time indicated on the display can deviate from the values in the table, because it takes into account the operating conditions applicable at that time.
** To reduce the water temperature, some cold water is added at the end of the main wash cycle, before the pump drains the water out.

ADD DETERGENTS, CLOSE THE DOOR AND SELECT THE PROGRAMME

Add detergent as indicated on the front page and as described in the chapter "Detergent and Additives" in your Instructions for Use.
1. Push the **"On/Off"** button ⏻. The blue light circle signals that the washer is switched on.
2. Select the **desired programme** by pushing the corresponding programme button; it is marked by a blue light.
3. The **temperature** and **spin speed** indicated on the display can be altered by pressing the "Temperature" button or the "Variable spin" button.

SELECT ANY DESIRED OPTION

When the combination of programme and additional option(s) is not possible, the indication lights switch off automatically. Unsuitable combinations of options are deselected automatically.

"Big Items" button
• Select this option for washing big laundry items such as blankets made of synthetic fibres, bed covers filled with feathers or artificial fibres, sleeping bags, bathmats and similar.

"Steam stain removal" button
• Treats the laundry with hot steam during the wash cycle in order to help removing stains.
• Selectable for laundry made of cotton and/or synthetics within temperature range of 40 to 60°C.

"Steam sanitisation" button
• Eliminates bacteria and helps sanitizing the laundry.
• Appropriate for cotton and/or synthetic laundry items with care label ⊡ within temperature range of 40 to 60°C.
• Prolongs the programme by approx. half an hour to an hour, depending on the load size.

"Prewash" button
• Only for heavily soiled loads (for example sand, granular dirt) sensible. Increases the cycle time by approximately 15 min.
• Do not use liquid detergent for the main wash when activating the Prewash option.

"Intensive rinse" button
• More water is added and rinse cycle is prolonged.
• This option is particularly suitable for areas with very soft water or for washing baby linen, and helps people with allergies.

"Rinse hold" button
• The laundry remains in the last rinse water without progressing to the final spin cycle to avoid creasing and prevent colours from changing.
• This option is particularly recommended for the programmes "Synthetics", "Daily load" and "Delicates".
• It is particularly useful if you want to postpone spinning to a later time, or if you want to drain only.
• If you select "Rinse hold", do not leave the laundry to soak for too long.
  Note: The programme stops to "Rinse hold" at the time the "Rinse hold" symbol on the display lights up. The blue light under the **"Start/Pause"** button ⏻ flashes.

**Terminate the "Rinse hold" option:**
• Press the **"Start/Pause"** button ⏻; the programme will terminate automatically with the final spin cycle for the present wash programme.
• If you do not wish to spin the clothes, push the **"Drain/Reset (3sec)"** button and then the **"Start/Pause"** button ⏻ to start the Drain programme.

"Variable spin" button
• Every programme has a predefined spin speed.
• Press the button to set another spin speed.
• If spin speed "0" is selected, the final spinning is cancelled but intermediate spin peaks remain during rinse. The water is drained out only.

START DELAY

The "Start delay" allows to run the machine at the consumer's convenience, for example at night when electricity is cheaper. Do not use liquid detergent when activating the "Start delay".
• Select programme, temperature, spin speed and options.
• Press the "Start delay" button to select the delay time up to 23 hours.
• Press the **"Start/Pause"** button ⏻.
  The countdown of the delay time begins; the clock symbol next to the delay time and the dot between hours and minutes flash.
• The time delay indication disappears when the programme starts and it is replaced by the remaining programme time.
• Once having pressed the **"Start/Pause"** button ⏻, the number of hours preselected can be reduced by pressing and holding the "Start delay" button. From 1 hour on, the delay time can also be reduced by minutes.

To cancel the "Start delay"
..before you press the "Start/Pause" button:
• Select another programme or press the **"Drain/Reset (3sec)"** button.
..after having pressed the "Start/Pause" button:
• Press the **"Drain/Reset (3sec)"** button for at least 3 seconds - the start delay time disappears from the display.

PROGRAMME START ⏻

Open the tap and press the **"Start/Pause"** button ⏻. The blue light under the **"Start/Pause"** button ⏻ is on. The programme sequence indicator shows the current programme phase, running from left to right through Wash, Rinse, Spin/Drain.

"DOOR OPEN" INDICATION 🔓

Before starting and after end of a programme, the symbol lights to show that the door can be opened. As long as a wash programme is running, the door remains locked and must on no account be forced open. In case you have an urgent need to open it during a running programme, refer to "Cancel (Reset) a running programme before the end".

CHILD LOCK 🔒

You can lock the buttons of the control panel against improper use (e.g. by children).
• Press the temperature and the spin speed button simultaneously and hold them for at least 3 seconds. The key symbol on the display lights up.
• To unlock the buttons again: proceed in the same way.

RED INDICATIONS ON THE DISPLAY

"Water tap closed" 🚰
The appliance has no or insufficient water supply. Open the water tap; if the indication still lights up, refer to the "Troubleshooting Guide" in the Instructions for Use.
**"Clean pump"** ⊞
Waste water is not pumped out. Check whether the drain hose is kinked or the filter must be cleaned; in the latter case refer to the Instructions for Use ("Removing the Filter").
**"Service"** ⊘
Lighting up of the "Service" indication can be caused by a fault in an electrical component. Refer to the "Troubleshooting Guide" in your Instructions for Use; if the fault persists, contact our After Sales Service.

PROGRAMME END 🔓

• The symbols of the programme sequence indicator are dark, and the "Door open" symbol 🔓 lights up.
1. Switch the machine off by pushing **"On/Off"** ⏻.
2. Close the water tap.
3. Open the door and unload the machine.
4. Leave the door ajar to allow the drum to dry.

CHANGE PROGRAMME AND/OR OPTIONS AFTER PROGRAMME START

1. Press the **"Start/Pause"** button ⏻ to pause the programme. The light flashes.
2. Select the new programme, temperature, any options and another spin speed if you want.
3. Press the **"Start/Pause"** button ⏻ again. The new programme continues at the same position where the previous programme was interrupted. Do not add detergent for this programme.

CANCEL (RESET) A RUNNING PROGRAMME BEFORE THE END

The **"Drain/Reset (3sec)"** button cancels a programme before the end.
• Press the **"Drain/Reset (3sec)"** button for at least 3 seconds. Any existing water is drained out before the door can be opened. Caution! The washing might still be hot.
